Patient Appointment Responsibilities

Your appointments are determined by your physician to optimize the results from your treatment plan. In addition to the clinical benefit of the structured appointment schedule, the schedule makes it possible to assure that the appropriate medical personnel, including the physician, ultrasound technologist, or medical assistant as well as the required medical equipment and facilities are available to complete your treatment safely and effectively. To ensure your quality of care and the quality of care of all other scheduled patients, we require a minimum of a 24-hour notification in the event that your appointment must be rescheduled. Any No Show appointment may result in a \$50.00 fee not billable to Insurance.
